## RFID Xbands

The X-Band combines both of ID&C's cloth wristband styles, full-color printed satin and woven polyester, in a single band. That means full-color branding paired with the added security and finishing details of a woven wristband, which is why it's become a festival favorite.

Comfortable to wear and fully waterproof, the X-Band holds up for the duration of any event. Its RFID tag sits inside a sealed pouch, protected and out of sight.

## RFID Smartcard Wristbands

The original RFID festival wristband. Since 2010, ID&C has supplied cloth wristbands with RFID smart cards to the events industry, and they've become a staple of the modern festival. High-quality printed or woven wristbands are combined with a durable PVC smart card, giving you RFID security, cashless payment features, and a wide range of customization options, from materials and locks to woven threads. Durable, waterproof and customizable it's an RFID wristband you can make your own.

## Woven Fabric Wristbands

Where it all started. ID&C first introduced the woven cloth wristband for event access at Glastonbury Festival in England in 1999. Since then, it's become synonymous with live events.

Choose up to 8 woven threads, including glitter, glow-in-the-dark, and neon options, to make it your own. Woven wristbands are difficult to duplicate, and combined with our anti-tamper, single-use locks, they make a reliable choice for event access.

## One-Color Plastic Wristbands

A popular choice for festivals and sports events. The L-shaped design gives you a large printing area, and the snap lock closure is secure and tamper-evident. Choose from 13 base colors.

A budget-friendly plastic wristband with one-color printing. Supplied in sheets of 10. Waterproof, scratch-proof, flexible, and durable.

### Available Colors

## Full Color Plastic Wristbands

The same secure L-shaped design and snap lock closure as our one-color plastic wristband, built for full-color print instead of a single spot color. Add your own full-color design as standard. Serialization and barcoding are available if you need to track individual wristbands.

Supplied in sheets of 10. Waterproof, scratch-proof, flexible, and durable

**SPECIAL FEATURES:** barcodes, QR codes, serialization

## RFID Synthetic Wristbands

Unlike our Chroma paper wristbands, which are supplied in sheets, synthetic wristbands are designed to be dispensed from a kiosk. They offer an effective, easy-to-use, non-transferable print on site identification wristbands, making them a strong fit anywhere you need a secure, visual form of ID.

Non-transferable, tamper-evident, and single-use, these wristbands dispense from most standard kiosks and thermal printers. They're made from a soft, durable material that resists tearing.

**SPECIAL FEATURES:** waterproof/chemical resistant coating, barcodes, QR codes, serialization

## Hard PVC Badges

A step up from our standard badges, built with rigid, waterproof PVC laminated construction designed to go beyond a single event. These badges hold up well enough to double as keepsakes, giving attendees a souvenir that lasts long after the show ends.

Available with a wide range of specialty printing and foils, variable data printing, and even embedded RFID for access control, cashless payments and NFC/NDEF encoding for sponsorship and event engagement pre during and post event.

Ideal for music festivals, conferences, expos, and private venues where you want the badge to represent well after the gates close.

## Window Stickers

Our window stickers are reverse printed on clear PET with a clear PET liner. That construction means you can order a 4 or 6 inch sticker with the appearance of a custom shape with no die required, and because the liner is clear, barcodes printed on the front can be scanned and fulfilled without peeling the sticker off.

Full-color, front-facing printing is available in tamper-proof, which breaks and tears when removed, or easy-peel, for simple single-piece removal. They're designed and tested to come off without leaving residue, even in extreme car temperatures
